

Medicine treats the cancer. Camp heals the **soul**.

## Medications: Mini Camp

Camp Goodtimes is a medical cancer camp, and we have registered nurses/nurse practitioners and physicians on site 24/7, as well as a dedicated Mini Camp nurse to attend to camper's medical needs—including administering medications. It is important to include all medications your camper is currently taking in the medications section of the application. You can also update that section right up until camp starts. Once at camp, during check-in, you will meet with the Mini Camp nurse to discuss all medications, doses, etc.

### Medication Requirements

- Medications we need to know about include prescription and over-the-counter medicines, such as vitamins and supplements
- All medications need to be brought in their original containers
- Enough medication to cover the day should be brought to camp
- Inhalers and epi-pens need to be brought by the camper family for asthma and anaphylactic reactions to allergies
- Camp nurse will round on campers multiple times a day to administer meds at the appropriate time for each med

### Restrictions

- It is our policy that we will not administer cannabis products, such as CBD oil, while at camp. Please do not send these supplies to camp.
