

Medicine treats the cancer. Camp heals the **soul**.

Medications: Ski Camp

It is important to include all medications your camper is currently taking in the medications section of your child's application. You can also update that section right up until camp starts. During check-in, you will meet with the Ski Camp nurse to discuss all medications, doses, etc.

Medication Requirements

- Medications we need to know about include prescription and over-the-counter medicines, such as vitamins and supplements
- All medications need to be brought in their original containers
- Enough medication to cover the weekend should be brought to camp
- Inhalers and epi-pens need to be brought by the camper family for asthma and anaphylactic reactions to allergies
- Camp nurse will be skiing with campers to allow for med administration throughout the day

Restrictions

- It is our policy that we will not administer cannabis products, such as CBD oil, while at camp. Please do not send these supplies to camp.
